HIPAA Privacy and Security Policy

MediCare Solutions, Inc.

Policy Number: HIPAA-2024-001

Effective Date: January 1, 2024

Version: 3.0

---

1. POLICY STATEMENT

"Keep it private, keep it safe" - This is our organizational commitment. MediCare Solutions, Inc. is dedicated to protecting Protected Health Information (PHI) from the moment a patient walks through our door. All workforce members must ensure that patient information is never on display and must maintain PHI protection every single day.

2. SCOPE

This policy applies to all workforce members from the janitor to the CEO. As stated in our training materials: "HIPAA compliance, everyone must know." This includes:

- All employees
- Business associates
- Contractors and volunteers
- Anyone with access to PHI

3. PROTECTED HEALTH INFORMATION (PHI) DEFINITION

3.1 The 18 HIPAA Identifiers

PHI includes but is not limited to:

- Names and birthdays
- Addresses (geographic subdivisions smaller than state)
- Medical records and account numbers
- Social Security Numbers (SSN)
- Facial photos and biometric identifiers
- IP addresses
- All dates directly related to an individual
- Telephone and fax numbers

- Email addresses
- Medical record numbers
- Health plan beneficiary numbers
- Certificate/license numbers
- Vehicle identifiers
- Device identifiers and serial numbers
- Web URLs
- Full face photographic images
- Any unique identifying characteristics

Remember: "P-H-I, what does it include? Names, locations, dates, don't be crude"

4. PRIVACY SAFEGUARDS

4.1 Physical Safeguards

- **Lock your screen when you step away** - All workstations must be secured when unattended
- **Secure it tight** - Physical documents must be stored in locked cabinets
- **Shred those papers before they're gone** - All PHI documents must be shredded before disposal

4.2 Verbal Communications

The following locations are PROHIBITED for discussing PHI:

- **Hallways** - "Even in the hallway, watch what you say"
- **Elevators** - "Elevator conversation? That's a no"
- **Cafeterias/Lunch areas** - "At lunch discussing cases? Let it go"
- Any public area where unauthorized individuals may overhear

4.3 Electronic Communications

- **Social media patient photo share? Million dollar fine if you dare**
- **Texting patient data on your phone? Use approved channels alone**
- All electronic PHI must use encryption
- Passwords must be strong and unique
- Email containing PHI must be encrypted

5. MINIMUM NECESSARY STANDARD

Access to PHI shall be limited to:

- **"Need to know basis, that's the rule"**
- **"Minimum necessary, that's the tool"**
- Only information required to perform job duties
- Role-based access controls shall be implemented

6. AUTHORIZATION AND DISCLOSURE

6.1 Required Authorization

- **"Authorization forms before you share"**
- **"Double-check permissions everywhere"**
- Written authorization required for all non-treatment disclosures
- Verify authorization validity before any release

6.2 Documentation Requirements

- **"Document access in all the ways"**
- All access to PHI must be logged
- Audit trails must be maintained for 6 years

7. BREACH NOTIFICATION

7.1 Timeline Requirements

- **"Breach notification, 60 days"** - All affected individuals must be notified within 60 days of breach discovery
- Department of Health and Human Services notification required
- Media notification for breaches affecting 500+ individuals

7.2 Incident Reporting

- **"Report suspicious activity today"**
- All suspected breaches must be reported immediately
